Advocates End Of Dulles' CIA

To the Editor of the Standard-Times:

I believe the Central Intelligence Agency should be abolished and anything useful in it should be placed under the FBI.

The CIA would not divulge the amount of money it spends to Congress and it never has served any purpose for America's preservation. Even Khrushchev said CIA's director, Allen Dulles, he enjoyed reading Dulles' secret reports. Just who under Dulles, in his bureau, made known to [illegible] hush to the American people?
